
Eleiko Power Rack Platform

Small - Strong Blue

- ✓ **Prestera compatible**
- ✓ **Stable footing**
- ✓ **Integrated fit**

Designed to integrate directly into Prestera racks, Eleiko Rack Platforms create defined lifting stations with durable 32 mm drop zone tiles. A reinforced standing deck provides a stable, confident base for heavy lifts, while the insert design maintains clean lines and efficient use of space. Compatible with Prestera Half Rack, Double Half Rack, and Power Rack configurations, platforms support a compact footprint with configurable frame and deck options to suit different training layouts.

Features

Protection
32 mm rubber tiles absorb impact to protect equipment and flooring.

Lifting surface
Engineered grip surface delivers stable contact for consistent, confident execution.

Durable drop zone
A uniform, easy to clean, odour-free rubber tiles maintain performance through repeated heavy use.

Rack integration
Designed to integrate seamlessly with Prestera racks.

System flexibility
Configurable frame and deck options, with colour and logo customization to suit your space.
