

Eleiko Prestera Crossbar L=1720

Black

- ✓ Rig Crossbars
- ✓ 1720 mm optimal for Pull-Up Stations
- ✓ 1072 mm optimal for Squat Stations

The Eleiko Prestera Crossbars are an integral part of building a rig. Crossbars provide stability and are mounted between uprights to create squat and pull-up stations depending on the length used.

Features

Training Stations

Select between the 1072 mm and 1720 mm versions to create squat and pull-up stations, respectively.

Distinctive Coherent Profile

Clean lines and smooth corners present a new profile in rig design. The updated design language lets you reinvent your strength space with statement rigs that make the most of your space and deliver effective programs and outstanding training experiences.

Durable Construction

Constructed from robust 3mm thick 70x70 mm steel, mounting plates are welded to the Crossbars and then bolted to the uprights.

Compatibility

Designed specifically for the Prestera System.
