

Eleiko Prestera Rig Upright XS 2350

Black

- ✓ Rig framework pieces
- ✓ Four heights for maximal flexibility
- ✓ Robust 4 mm thick steel

The Prestera Rig Uprights are available in various heights allowing you to build strength training spaces that are tailored to and evolve with your needs. Robust 4 mm thick steel ensures the rig is exceptionally stable, while the 70x70 geometry is optimised for lifting. Laser-cut holes feature a chamfered edge to help minimise powder coat wear, and the 50 mm hole spacing allows lifters to find the correct placement for barbell and fitness training attachments.

Features

Numbered Holes

The numbering on the laser cut holes is uniform across the Prestera system, helping lifters find their barbell and fitness attachment placements across training environments.

Added Stability

We recommend anchoring uprights with bolts into the floor or through the Prestera Bottom Plate.

Compatibility

Designed specifically for the Prestera System.

Specifications

Unit of measurement
Sold individually

Article code
2001500-03

Length
70 mm / 2.76 in.

Width
70 mm / 2.76 in.

Height
2351 mm / 92.56 in.
