

Prestera Rig Upright M 3150

Galvanized

- ✓ Rig framework pieces
- ✓ Four heights for maximal flexibility
- ✓ Robust 4 mm thick galvanized steel

The Prestera Rig Uprights are available in various heights allowing you to build strength training spaces that are tailored to and evolve with your needs. Robust 4 mm thick steel ensures the rig is exceptionally stable, while the 70x70 geometry is optimized for lifting. Laser-cut holes feature a chamfered edge to help minimize wear, and the 50 mm hole spacing allows lifters to find the correct placement for barbell and fitness training attachments. The rustproof galvanized finish delivers long-lasting performance outdoors.

Features

For Outdoor Training

Eleiko galvanized steel products are rustproof and designed specifically for long-lasting performance in any climate.

Numbered Holes

The numbering on the laser cut holes is uniform across the Prestera system, helping lifters find their barbell and fitness attachment placements across training environments.

Compatibility

Designed specifically for attachments in the Eleiko Prestera System.

Added Stability

We recommend anchoring uprights with bolts into the floor or through the Prestera Bottom Plate.

Specifications

Unit of measurement
Sold individually

Article code
2001502-01

Length
70 mm / 2.76 in.

Width
70 mm / 2.76 in.

Height
3151 mm / 124.06 in.

Weight
24,2 kg / 53.35 lbs

Warranty
10 years
