

Eleiko Prestera Angled Connector 45 degree

Galvanized

- ✓ Unlock creativity in rig design
- ✓ Navigate tricky room features

The Eleiko Prestera Angle Bracket for Crossbar is a unique bracket that helps unlock new and creative rig design possibilities. The 45-degree bracket is used in conjunction with any of the Prestera Crossbars to shift the direction of a rig configuration, helping navigate floorplan challenges or design creative showstopping rigs. The rustproof galvanized finish delivers long-lasting performance outdoors.

Features

Move beyond 90-degrees

Attach the 45-degree angle bracket to a crossbar for increased flexibility in rig design.

Wide Range of Uses

Use the angled bracket to create angled corner pieces, minimize dead space, create staggered training stations, and build around structural features or floor plan challenges.

For Outdoor Training

Eleiko galvanized steel products are rustproof and designed specifically for long-lasting performance in any climate.

Compatibility

Designed for use with the Eleiko Prestera System.
