

Eleiko Knee Wrap

The Eleiko Knee Wraps are constructed from a durable black elastic with grey accent stripes and the Eleiko logo at one end of each wrap. These wraps are very firm and supportive, but the tightness and level of support is determined by the user and how the wraps are applied. The elastic knee wraps are one long piece measuring 2 meters giving you lots of options in terms of determining your preferred fit. The wraps are sold in a pair and certified by the IPF for competition.

Features

Designed For

Knee support while lifting

Dimensions

A pair of long elastic wraps each one measuring 2 meters

Comfort in Use

Firm support, but tightness determined by wrap application
