

Concept2 RowErg Standard

Black

RowErg is created by and for rowers and is designed to work smoothly, be easy to maintain and last a lifetime. The comfortable feeling in the rudder is created thanks to the well-balanced flywheel which is braked by air resistance. RowErg adapts to the force in the pull, which means that you control your perceived effort and resistance throughout the workout.

Features

Performance Monitor

Each RowErg comes with the brand's most advanced Performance Monitor to date, the PM5. The monitor gives you direct response and comparable data after each session.

Adjustable Footplates

The footplates are easy to adjust and adapt to your shoe size. The handle is designed with a 10 degree bend so that you can row as comfortably as possible with your arms in a natural position.

Sustainable Construction

The machines are well known for their durability and construction.

Specifications

Unit of measurement

Sold individually

Article code

3002473-02

Length

2440 mm / 96.06 in.

Width

610 mm / 24.02 in.

Height

900 mm / 35.43 in.

Weight

26 kg / 57.32 lbs

Warranty

3 months-5 years

Colour
