

# Eleiko Insert Platform Power Rack

Black

This modified version of our IWF certified training platform fits seamlessly with Eleiko XF Power Rack. We use the same quality materials in a more compact design with an integrated insert piece that fits into the rack. The platform is easy to assemble and maintain. Thick durable odour rubber mats absorb shock and sound. The platform is designed to stand up to rigorous high-volume use of today's busy facilities.

## Features

### Designed For

Use with the Eleiko Power Rack to protect equipment and floors while strength training

### Easy Assembly

Adjustable metal frame is simple to assemble and attach to the XF pieces

### Lessen the Impact

High quality odour free rubber mats are shock and sound-absorbing

### Solid Lifts

Anti-slip platform surface for optimal foot grip while weightlifting

### Seamless Transition

Platform surface seamlessly extends from lifting platform into rack
