

Eleiko Functional Flooring, 1000x1000x22 mm, Jet Black

- ✓ Dynamic movement
- ✓ Seamless zones
- ✓ Consistent traction
- ✓ Easy upkeep

A surface built for movement-led training. Designed for functional zones where agility, variation, and continuous movement define the session. The low-profile construction provides consistent traction and durability while maintaining a clean, seamless training area for group and individual use. A reinforced option for functional zones exposed to increased load. The added thickness supports hybrid training where movement and free weights combine, providing additional protection while maintaining traction and consistency underfoot.

Features

Added protection

Absorbs impact from moderate loads and equipment use.

Noise reduction

Limits vibration in mixed-use training areas.

Fire classification

Fire classification for 22 mm Functional flooring is Cfl-s1.

Consistent surface

Maintains traction across varied training styles.

Durable build

Handles higher wear in high-traffic zones.
