

Eleiko Sprint Track, 7 mm, 30 m

- ✓ Interlocking tiles
- ✓ Metre markings
- ✓ Easy to clean
- ✓ Customizable

Eleiko Sprint Track uses high-density virgin rubber tiles with a non-porous top layer that resists dirt, moisture and bacteria — keeping the surface hygienic with minimal maintenance. White metre markings and the potential for logo inserts give a clean, professional finish. Interlocking installation creates a seamless surface with strong noise and vibration dampening underfoot.

Features

Non-porous surface

Resists moisture and bacteria for easy, low-maintenance cleaning.

Metre markings

White inserts at every metre for distance reference during sprint.

Custom branding

Add logos, custom markings and colours to suit any space.

Interlocking tiles

Seamless installation with no adhesive and a clean finished look.

Noise dampening

High-density rubber absorbs sound and vibration in busy training areas.
