

Woodway Treadmill 4Front

Quickset Display

Woodway 4Front is designed to deliver a natural and authentic running feeling. Running on a Woodway treadmill is the closest you can get to outdoor running. The treadmill is optimal for interval running as it has a strong and energy-efficient motor that allows it to accelerate and brake quickly. The construction of the treadmill is gentle to run on, which reduces the risk of injuries and overload. For those who demand the best treadmills on the market, Woodway has been the first choice for performance, durability and comfort since 1975. They are used by sports teams and training facilities around the world due to their patented design. The durable design also means that mechanical and electrical parts wear less and the treadmill therefore requires less maintenance, fewer repairs, lower overhead costs and a longer lifespan.

Specifications

Unit of measurement
Sold individually

Article code
3060700-05

Length
1830 mm / 72.05 in.

Width
890 mm / 35.04 in.

Height
1630 mm / 64.17 in.

Weight
200 kg / 440.92 lbs

Warranty
1-7years
