

Woodway Treadmill 4Front

ProSmart 21" Display and Ext Speed
(25km/h)

Woodway 4Front is designed to deliver a natural and authentic running feeling. Running on a Woodway treadmill is the closest you can get to outdoor running. The treadmill is optimal for interval running as it has a strong and energy-efficient motor that allows it to accelerate and brake quickly. The construction of the treadmill is gentle to run on, which reduces the risk of injuries and overload. For those who demand the best treadmills on the market, Woodway has been the first choice for performance, durability and comfort since 1975. They are used by sports teams and training facilities around the world due to their patented design. The durable design also means that mechanical and electrical parts wear less and the treadmill therefore requires less maintenance, fewer repairs, lower overhead costs and a longer lifespan.

Features

Lower electricity consumption

With superior operational reliability and minimal maintenance, the treadmills are perfect for those who run a training facility. On average, the Woodways treadmill lasts 10 times longer than another treadmill and requires only 50% of the electricity consumption compared to a regular treadmill.

Customization

The ProSmart allows full customization providing each facility to personalize their user experience with colors, logos, and themes.

ProSmart 21" Touchscreen

The Woodway ProSmart Touchscreen has dynamic Smart Coach Programs, entertainment options, customizable workouts browsing and streaming capabilities. The screen also introduces digital heart rate, data analysis via STATS, and much more.

Higher max speed

This treadmill has higher max speed of 25 km/h.

Specifications

Unit of measurement
Sold individually

Article code
3060700-07

Length
1830 mm / 72.05 in.

Width
890 mm / 35.04 in.

Height
1630 mm / 64.17 in.

Weight
200 kg / 440.92 lbs

Warranty
1-7years
