

Eleiko WPP0 Powerlifting Competition Platform

4 x 4 m, Charcoal

Eleiko combines the best Scandinavian materials with our decades manufacturing expertise to create the ideal Para Powerlifting competition platform. Certified by World Para Powerlifting, the platform's joint free top layer ensures the surface is completely even. It is extremely sturdy and designed with easy assembly, transport and care in mind. The platform comes with a wheelchair ramp and pre-drilled holes for convenient setup. An engineered textile covering helps to absorb shock and sound, and the surface is light absorbing and TV ready. With this competition platform lifters can confidently focus on their performance and make every lift count.
