

Eleiko Weightlifting Competition Platform

boards

Eleiko's Weightlifting Competition Platform is a great solution for competitions that don't require IWF certified equipment. The platform is built with an emphasis on durability and functionality without sacrificing performance. The top is textured rubber for superb grip and traction creating an ideal lifting surface. The construction facilitates easy transport and set up, while a 63 mm thick layered wooden construction provides a sturdy solid structure for big lifts.

Features

Designed For

National and international competitive weightlifting

Easy Assembly

Design and construction support easy transport, assembly and tear down

Ideal Lifting Surface

Thermoplastic textured rubber top provides optimal grip and traction
