

Exceed Soft Medicine Ball, Black

3 kg, used

This product is part of our pre-lifted collection. We thoroughly inspect pre-lifted products to verify they are fully functional and in good working order. However, pre-lifted products may show signs of wear and are sold as is. Exceed Soft Medicine Ball are versatile stuffed medicine balls that can be used in multiple ways to increase challenge and add load to various indoor exercises. The surface is a durable synthetic leather providing users with a good gripping surface that is easy to keep clean. The Exceed Soft Medicine Balls range from 3 – 14 kg with the same 350 mm outer diameter regardless of the weight. These are non-bouncing balls, and are not appropriate for ball slams or high impact slamming movements.
