

Eleiko Olympic Incline Bench

Black/PUR

The Eleiko Olympic Incline Bench is used to develop upper body strength in an incline position. Designed with both the use and the facility in mind, the incline bench combines user-friendly features with smart details to ensure safety and minimize maintenance. It features ten height adjustments for the barbell hooks and an adjustable seat pad so users can find the optimal starting and ending position. The barbell hooks feature built-in polyurethane rollers to protect the bar and allow lifters to easily shift the bar position before lifts. The integrated weight storage pins keep weights conveniently at hand and the lifting area clutter free. Bolt down holes are hidden within the frame to maintain a sleek appearance while providing important added stability to ensure user safety.
