

Precor Discovery Plate-Loaded Angled Leg Press

Black Pearl/Black

The Discovery Series Plate Loaded Angled Leg Press features a 45-degree angle and a three-position, anatomically optimised seat design for precise body positioning and support. The four Footplate Carriage weight horns allow for easy loading of weight plates and a unique, oversized curved foot platform supported by four high load-rated linear bearings results in an incredibly solid, smooth and secure user experience.

Features

Solid

Oversized curved foot platform with built-in Calf Raise lip provides a solid, non-slip platform with full foot contact throughout the range of motion.

Secure

Weight carriage stops are visible from the exerciser position so the user has visual confirmation that the carriage is securely positioned on the stops. A four-position adjustable fail-safe stop allows for optimal confidence of the exerciser and the facility operator.

Smooth

Dual foot platform weight carriage shafts feature four 900 kg (2000 lb each) load-rated heavy commercial linear bearings. Dual rotating carriage stops feature adjustable two-stop positions to accommodate users of all sizes.
