

# Precor Discovery Plate-Loaded Angled Leg Press

Black Pearl/Black

The Discovery Series Plate Loaded Angled Leg Press features a 45-degree angle and a three-position, anatomically optimised seat design for precise body positioning and support. The four Footplate Carriage weight horns allow for easy loading of weight plates and a unique, oversized curved foot platform supported by four high load-rated linear bearings results in an incredibly solid, smooth and secure user experience.

## Funktioner

### Solid

Oversized curved foot platform with built-in Calf Raise lip provides a solid, non-slip platform with full foot contact throughout the range of motion.

### Secure

Weight carriage stops are visible from the exerciser position so the user has visual confirmation that the carriage is securely positioned on the stops. A four-position adjustable fail-safe stop allows for optimal confidence of the exerciser and the facility operator.

### Smooth

Dual foot platform weight carriage shafts feature four 900 kg (2000 lb each) load-rated heavy commercial linear bearings. Dual rotating carriage stops feature adjustable two-stop positions to accommodate users of all sizes.

## Specifikationer

**Säljes i enhet**
