

Eleiko Training Combo Rack

Combo Rack for training supports knee bends and bench press in a configuration that mirrors our IPF Combo Bench geometry with a smaller footprint, so that the training is transferred to the competition platform. Safety arms and a spotter stand are included for added safety during lifting. Rust-free uprights with 25 mm spacing support precision rollers with geometry adapted to IPF Competition Combo Rack spacing.

Produkt detaljer

Specs Mirror IPF Combo Rack

All spacing and positioning in the Training Combo Rack – from the upright geometry to the hole heights and spotter distance – mirror the competition certified Eleiko IPF Combo Rack.

Sikker Passform

The Pretera Spotter Attachment simply and securely slots into place between the rack uprights and is fastened with magnetic pins.

Lett å tilpasse

The Training Combo Rack configuration is easily adapted to move between the squats and bench press.

Fine Tune Adjustments

Stainless steel uprights with IPF aligned 25mm spacing deliver precision racking, and j-cup rollers allow fine-tune lateral bar adjustments.
