

Eleiko Barbell Lifter

Charcoal

The new barbell lifter's robust design incorporates a study 50 mm steel tubing, along with nylon lined bar hooks that are set wider apart to be more stable and protect bars from damage. The re-engineered handle gives loaders a better leverage point allowing barbells to be lifted with less effort and spring-loaded wheels make it easier to operate move barbells as needed. The improved geometry combined with the enhanced materials and updated design makes this lifter a dream to operate.
