Eleiko XF Bumper Plate

10 LBS, black

The Eleiko XF Bumpers composition enhances durability and delivers an incredibly long-lasting disc designed for tough training and varied environments. The design updates include a more narrow 45 lbs disc, one that matches the width of the 35 lb discs, so more weight can be loaded on the barbell. The 10 lb and 15 lb discs are designed with a smaller 320 mm diameter and thicker width so bumpers won't warp and break. Our compressed recycled crumb rubber is soft yet durable providing fantastic sound dampening and shock absorption. Discs are sold individually.

Features

Designed for
Strength training and functional fitness in mixed use environments

Indoors or Out
Tough enough for the outdoors, yet quiet and gentle on floors indoors

Secure Handling
Lipped edge around circumference for easy and safe handling

Recycled Rubber
All EU rubber for a more green, clean and durable disc
