

Eleiko Bar Sensor Kit

- ✓ **Seamless sleeve integration**
- ✓ **Quick install**
- ✓ **Real-time training insights**
- ✓ **Connects to Enode system**

The Eleiko Bar Sensor Kit makes performance tracking effortless. Eleiko's new sensor-ready bars feature a patented sleeve and endcap system that enables quick installation. Compact and discreet, the sensors measure bar path, even under flex, turning every lift into accurate, actionable data. Sensors connect to Enode's ecosystem, unlocking advanced analytics, velocity-based training, and proprietary AI-powered programming. Whether you're coaching elite athletes or training in a home gym, it is a direct bridge between barbell and performance — scalable from individual lifter to full teams.

Features

Effortless Access
Patented sensor-ready end cap system opens in seconds.

Seamless Ecosystem
Tracks 11+ metrics across 1000+ exercises, including bar path, velocity, and power.

Easily Scalable
Adapts from single lifters to full performance centers.

Calibrated
Bars remain precisely calibrated, so you train as you compete.

Realtime Insights
Enode app provides load suggestions, readiness checks, and lift analysis with synced video.

Specifications

Unit of measurement
Sold individually

Article code
3085286

Length
210 mm / 8.27 in.

Width
175 mm / 6.89 in.

Height
74 mm / 2.91 in.

Weight
0,7 kg / 1.54 lbs
