

# Eleiko Change Plate Black, lb

Eleiko Rubber Coated Change Plates support smaller increases and manageable weight jumps when training. Consisting of a solid steel core that is rubber coated, the change plates feature a minimalistic design with no center hub. The plates have raised edges for easier handling and a snug, secure fit that takes less space on the sleeve when plates are loaded. The black matte finish with white weight markings provides easy weight identification. The change plates range from 2,5 to 10 lbs and are sold individually.

## Features

### Designed For

Strength training and functional fitness in mixed use environments

### Lasting Performance

Solid steel core coated in durable rubber

### Smaller Increases

Plates range from 2,5 – 10 lbs for small increment adjustments

### Nestable and Compact
