

Eleiko XF 80 Light Rack

Galvanized

With the galvanized Eleiko XF 80 Light Rack, we deliver a strong foundation for outdoor training in a space-efficient footprint. The lower height (180 cm/6 feet) is ideally suited for home gyms or places where space is limited. The galvanized finish provides weather- and rust-resistance, extending the durability of the rack. The rack features j-cups to provide functional outdoor training in both backyard setups and highly trafficked outdoor facilities. Customize with attachments and storage components to create a training space tailored to your needs.
