

Eleiko Weightlifting Warm-up Plate Rack

Charcoal

Eleiko's Weightlifting Warm-Up Plate Rack features the same modern design profile as the competition rack with an expanded storage capacity, integrated barbell storage and space for one set of competition collars. The base construction and shape of the plate dividers make handling, unloading and re-racking plates easier. The design facilitates systemized plate storage as each slot is sized specifically to accommodate the differing plate widths ensuring a secure fit and that weights are stored in the appropriate spot. The plate rack holds six 25 kg plates, two 20 kg plates, two 15 kg plates, two 10 kg plates and two of each of the change plates ranging from 5 kg to 0.5 kg. The rack also incorporates storage spots for two barbells and one pair of competition collars.

Features

Designed For

Storing and organizing plates, collars and bars

User Friendly

Base and plates divider design make plates easier to grasp, load and unload

Improved Functionality

Specifically sized slots ensure weights are stored in the appropriate place

Grab and Go

Everything you need for warming up neatly consolidated in one well designed unit
