

Rubtiler RRT Premium Bevel, 30mm, 1010x1010mm, Black

Designed to minimize noise and protect flooring, the Rubtiler RRT Premium are designed for creating quieter, more comfortable free weight and functional fitness areas. The tiles are easy to assemble and maintain, effectively reduce the noise caused by dropping weights or equipment and protect the floor surface underneath. The gym tiles have high stability and cushioning properties to create a good basis for physical exercises while preventing against injuries and joint strain. Sold separately, the Rubtiler RRT Premium are available in three thicknesses.
