

Eleiko Prestera Adjustable Pull-Up Handles (Pair)

Black

Adjustable pull up handles deliver versatile and customizable upper body training. Designed for the Prestera rack series, the swivel handles can be easily and independently adjusted 180 degrees in 22.5-degree increments allowing users to find the pull up positions best suited to their comfort and training needs. The unique spherical bearing construction means the handle position and angle are set by the user; the handles also feature knurling for a secure grip.
