

Eleiko Prestera Squat Rack Frame

Galvanized

- ✓ Galvanized uprights
- ✓ Rustproof finish

The Eleiko galvanized finish is rustproof and weather-resistant, making it ideal for creating outdoor training environments. The rack configuration is aligned with IPF specifications and balances the optimal racking position for squats and bench presses.

Features

Designed to IPF Specifications

Rack geometry is built to IPF specifications so you can train with a profile optimized for all lifts and directly transfers to competition.

Optimized Geometry

Rack geometry makes it easier to rack the barbell and gives more room inside the frame without compromising load capacity.

Prestera Attachments

Compatible with Prestera barbell and fitness attachments.

High Performance

Durable, 70x70 mm steel uprights feature 50 mm hole spacing and laser-cut numbering for precise racking positions.

Stable Foundation

Hidden bolt-down holes minimize trip hazards and provide stability while maintaining the half rack's sleek appearance.
