

Eleiko Prestera Safety Straps, Pair

Black

- ✓ Safe Training Environments
- ✓ Easily Adjust Height
- ✓ 500 kg Load Rating

Attach Safety Straps to the Prestera Power Rack to improve lifter safety. Easy to instal and adjust, set the pin on the steel bracket at the desired height and rotate to secure straps on the uprights when performing squats, bench presses, overhead presses and pulls.

Features

Lifter Safety

A simple yet effective system ensures lifter safety and protects equipment during training sessions.

Durable Construction

Prestera Safety Straps are 1090 mm long to fit securely between the Power Rack uprights. They are constructed with 75 mm wide nylon webbing and a double-folded 5 mm thickness for durability and rated for 500 kg.

Reinforced Stitching

The straps are heavily reinforced with six cross-patterned stitches on both sides of the straps to hold the bar safely during each drop.

Safety Measures

Prestera Safety Straps include a red fabric core to signal when worn straps are due for replacement.

Keeps barbell in place

Manufactured with durable Nylon webbing and high abrasion reinforcement corduroy top to help grab the bar knurling and keep the bar in place.
