

Eleiko Powerlifting Training Platform

3x2m - Black

- ✓ 30mm rubber tiles
- ✓ Protect equipment and floors
- ✓ 2 x 3-meter platform

Build a strong foundation for your lifting space with the Eleiko Rubber Training Platform. This durable platform features six 1x1 meter, 30 mm thick rubber tiles that dampen noise and protect your barbell and flooring.

Features

Strong Foundation

Whether for deadlifts or beneath a Squat Rack or Training Combo Rack, this durable platform, with its anti-slip surface, sets a strong foundation and defines your training space.

Thoroughly Tested

Extensive wear cycle testing to ensure long-lasting performance.

Complete Training Space

Combine the Powerlifting Training Platform with the Training Combo Rack to create the Eleiko Powerlifting Training Station.

Dampen Noise

Our thickest 30mm tiles dampen noise and protect flooring and equipment from wear and tear.

Easy to Use

Platform tiles are secured with an easily assembled 30x30mm steel frame with adjustable corners to ensure a secure fit.
