

Eleiko Prestera Half Rack

Stainless

The Prestera Half Rack features essential attachments including a straight pull-up bar, j-cups with rollers, and safety arms and is outfitted with eight weight pins for maximum storage. The stainless uprights deliver a performance upgrade providing tighter 25 mm hole spacing with etched numbering and a long-lasting finish optimized for gliding attachments. The easily adjustable J-cups have a taller profile, inspired by our IPF combo bench, that offers more protection to the rack and barbell and feature polyurethane rollers to protect the bar knurling and support positioning adjustments.

Features

Optimized Geometry

Rack geometry makes it easier to rack the barbell and gives more room inside the frame without compromising load capacity.

Protect Knurling

Polyurethane rollers on j-cups protect bar knurling and support positioning adjustments

Stable Foundation

Hidden bolt down holes minimizes trip hazards, provide stability while maintaining the half rack's sleek appearance.

Compatibility

Designed for use with attachments in the Prestera System.
