

Eleiko Prestera Power Rack

Stainless

Eleiko Prestera Power Rack is a smartly designed power rack supporting a wide range of strength training needs, featuring safety beams and pair of j-cups with a protective liner and eight weight pins in three lengths for versatile storage. The stainless uprights deliver a performance upgrade providing tighter 25 mm hole spacing with etched numbering and a long-lasting finish optimized for gliding attachments. The easily adjustable J-cups have a taller profile, inspired by our IPF combo bench, that offers more protection to the rack and barbell and features polyurethane rollers to protect the bar knurling and support positioning adjustments. The rack geometry — made from robust 70x70 mm (3mm) steel — strikes the optimal balance giving users more room to comfortably grasp and safely lift and rack the barbell while also supporting record setting lifts.

Features

Optimized Geometry

Sturdy steel uprights are spaced to support both bench press and squat allowing for less rack interference from the outside and more room for lifters inside the frame without compromising load capacity.

Stable Foundation

Hidden bolt down holes minimizes trip hazards, provide stability while maintaining the half rack's sleek appearance.

Compatibility

Designed for use with attachments in the Prestera System.

Platform Compatibility

Compatible with standard Insert Platform - Power Rack

Specifications

Article code
BD-1-374

Length
2444 mm / 96.22 in.

Width
