

Eleiko Prestera Double Half Rack

Stainless

The Prestera Double Half Rack is the foundation for creating highly versatile dual strength training stations that maximize facility footprints. The stainless uprights deliver a performance upgrade providing tighter 25 mm hole spacing with etched numbering and a long-lasting finish optimized for gliding attachments. The rack features a straight pull-up bar, J-cups, safety arms and eight weight pins in three lengths for versatile storage. The easily adjustable J-cups have a taller profile — inspired by our IPF combo bench — with UHMW protection on the back and polyurethane rollers in the cups to protect the bar knurling and support positioning adjustments.

Features

Optimized Geometry

Rack geometry makes it easier to rack the barbell and gives more room inside the frame without compromising load capacity.

Stable Foundation

Hidden bolt down holes minimize trip hazards, provide stability while maintaining the half rack's sleek appearance.

Compatibility

Designed for use with attachments in the Prestera System.

Stainless Steel Uprights

A performance upgrade to the powder coat option, 25 mm hole spacing provides more precise adjustment increments and electrolytic etching maintains steel strength and integrity.

Protect Knurling

Polyurethane rollers on J-cups protect bar knurling and support positioning adjustments

Specifications

Article code

BD-1-349

Length

2444 mm / 96.22 in.

Width

1962 mm / 77.24 in.

Height

2353 mm / 92.64 in.

Weight

207.74 kg / 457.99 lbs

Warranty

6 months-10 years
