

Eleiko Pretera Battle Rope Attachment

Black

- ✓ Diseñado para Pretera
- ✓ Rope Anchor
- ✓ Position on uprights

Use the Pretera Battle Rope Attachment at a low position for upper body rope training and conditioning. It can be positioned at any height for use with rubber bands or suspension trainers to support mobility and resistance work.

Características

Rope Training

Secure anchor for battle rope training with a smooth surface finish minimising rope wear and tear.

Upright Positioning

It can be placed on any surface of the upright.

Variedad de entrenamiento

The primary intent is for battle rope conditioning exercises. However, the attachment can also be used as an attachment point for rubber bands and suspension trainers within the strength training station.

Loop Size

The loop measures 96 mm and can accommodate up to 50 mm ropes or a variety of bands.

Compatibilidad

Diseñado específicamente para la serie Pretera.
