

Eleiko Prestera Half Rack Frame

Black - Short

Start with the short version of the Prestera Half Rack as a foundation for building a versatile strength training station in spaces with lower ceiling heights, such as home or garage gyms. The rack geometry — made from robust 70x70 mm (3mm) steel — strikes the optimal balance, giving users more room to comfortably grasp and safely lift and rack the barbell while supporting record-setting lifts.

Features

Optimized Geometry for Lifting

Sturdy steel uprights are spaced to support both bench press and squat, allowing for less rack interference from the outside and more room for lifters inside the frame without compromising load capacity.

Ideal for Home Gyms

The short version of the Prestera Half Rack measures 2153 mm (just over 7 feet) to comfortably fit in most homes with standard ceilings.

Compatibility

Designed for use with attachments in the Prestera System.

Specifications

Article code
BD-1-363

Length
1303 mm / 51.3 in.

Width
1212 mm / 47.72 in.

Height
2153 mm / 84.76 in.

Weight
94,54 kg / 208.43 lbs

Warranty
10 years

Colour
Black
