

Eleiko Prestera Adjustable Pad Attachment

Black / PUR

- ✓ Designed for Prestera
- ✓ Added Rack Functionality
- ✓ Adjustable Position

The Prestera Adjustable Pad is a versatile pad used to support the torso for a range of row, fly or pressing exercises or a seat pad. The pad attaches to any Prestera Safety Arm and can be adjusted from flat to a vertical position. Between the height position of the safety arm and the ten angle adjustments, users can find numerous ways to support their training with a position tailored to their needs.

Features

Easy to Use

Attach to any Prestera Safety Arm using the built-in pin and set to the desired angle using a magnetic pin.

Adjustments

Pad ranges from flat to 90 degrees with ten adjustment points at 9 degree increments. A knurled pop-pin controls the angle positioning.

Compatible

Designed exclusively for the Prestera System.

Pad Height Positioning

Place the Prestera Safety Arm at the desired height on the upright and attach the pad.

Quality Construction

Sturdy steel tubing with durable powder coat finish and polyurethane PUR pad is easy to clean and maintain.
