

# Eleiko Change Plate Rubber Coated

LBS

- ✓ Streamlined profile
- ✓ Nesting compact design
- ✓ Coloured plates

Eleiko Change Plate support smaller increases and manageable weight jumps when training. Consisting of a solid steel core that is rubber coated, the change plates feature a minimalistic design with no center hub. The plates have raised edges for easier handling and a snug, secure fit that takes less space on the sleeve when change plates are loaded. The coloured plates with white weight markings provide easy weight identification. The change plates range from 1.25 lb to 10 lbs and are sold individually.

## Features

### Designed For

Strength training and functional fitness in mixed-use training environments.

### Lasting Performance

Solid steel core coated in durable rubber

### Smaller Increases

Plates range from 1.25 – 10 lb for smaller increment adjustments.

### Nestable and Compact

Snug and secure fit that takes less that space on the sleeve and provides stability when plates are loaded

### Minimalistic Design

Coloured rubber with white weight markings ensures easy weight identification.
