

Eleiko Prestera Half Rack

Black - Short

The Prestera Short Half Rack is ideal for spaces with lower ceiling heights, such as home gyms, offering a versatile station to support all your training needs. Made from robust 70x70 mm (3mm) steel, the rack geometry strikes the optimal balance giving more room to comfortably grasp and safely lift and rack the barbell while supporting record-setting lifts.

Features

Optimized Geometry for Lifting

Sturdy steel uprights are spaced to support both bench press and squat, allowing for less rack interference from the outside and more room for lifters inside the frame without compromising load capacity.

Ideal for Home Gyms

The short version of the Prestera Half Rack measures 2153 mm (just over 7 feet) to comfortably fit in most homes with standard ceilings.

Powder Coat Uprights

Hard-wearing powder coat uprights feature 50 mm spacing increments with laser-cut numbering to accommodate a wide range of user, attachments and training needs.

Compatibility

Designed for use with attachments in the Prestera System.
