

Eleiko Prestera Power Rack

Black - Short

The short version of the Eleiko Prestera Power Rack supports a wide range of strength training needs, featuring Prestera Safety Beams and J-cups air both with protective liners and six medium length weight pins for versatile storage. The rack geometry — made from robust 70x70 mm (3mm) steel — strikes the optimal balance giving users more room to comfortably grasp and safely lift and rack the barbell while also supporting record setting lifts.

Features

Optimized Geometry for Lifting

70x70 mm uprights are spaced to support both bench press and squat allowing for less rack interference from the outside and more room for lifters inside the frame without compromising load capacity.

Ideal for Home Gyms

The short version of the Prestera Half Rack measures 2153 mm (just over 7 feet) to comfortably fit in most homes with standard ceilings.

Powder Coat Uprights

Hard wearing powder coat uprights feature 50 mm spacing increments with laser cut numbering to accommodate a wide range of user, attachments, and training needs.

Compatibility

Designed for use with attachments in the Prestera System.
