

Eleiko Prestera Adjustable Pull-Up Bar 1720

Galvanized

- ✓ Accommodate more users
- ✓ Protective liner
- ✓ Easily adjustable

A versatile pull-up bar that can be placed and adjusted on the fly, the Eleiko Prestera Adjustable Pull-Up Bar is easily positioned and safely secured with two Eleiko magnetic pins into the rig uprights. They are ideal for performing pull-ups, toes-to-bar, and bar muscle-ups, especially when accommodating athletes of differing heights and kids, and they allow for multiple scaling options. The rustproof galvanized finish delivers long-lasting performance outdoors.

Features

User Friendly

Quickly place the pull-up bar by fitting the bar to the uprights and securing the bar with the magnetic pins.

For Outdoor Training

Eleiko galvanized steel products are rustproof and designed specifically for long-lasting performance in any climate.

Compatibility

Designed for exclusive use with the Eleiko Prestera System.

Two Lengths

Available in 1072 mm and 1720 mm lengths, use the adjustable pull-up bar in either a squat or pull-up station.

Distinctive Details

Knurled magnetic pins keep the pull-up bar secure when placed and offer a secure, comfortable hold when positioning the bar.
