

Textile Resistance Band, Short 380mm

- ✓ Comfortable positioning
- ✓ Three levels of resistance
- ✓ Convenient carry bag

Complement your free weight training routine with Eleiko Textile Resistance Bands, a comfortable alternative to traditional rubber bands that are a versatile training tool for activation, warm-up, increasing resistance on body weight exercises, and isolation training. Grip strips keep the bands in place when in use, and the set includes a linen bag for neat storage or transport to the gym.

Features

Durable Materials

Made from spun polyester yarn woven with rubber to provide better elasticity during training. Constructed with a polyester and rubber mix in different ratios to achieve varying resistance, the bands are durable for long-term training.

Distinctive Details

Anti slip grip strips keep the bands in place when in use and a linen carry bag with Eleiko Seal ensure convenient transport to the gym or for neatly storing them at home.

Quality Construction

The design eliminates rolling, snapping, pinching, or slipping and reinforced double-ply edge stitching eliminating the risk of sudden breaking.
