

## Textile Resistance Band, Long 1100mm

- ✓ Comfortable positioning
- ✓ Three levels of resistance
- ✓ Convenient carry bag

Complement your free weight training routine with Eleiko Textile Resistance Bands, a comfortable alternative to traditional rubber bands that are a versatile training tool for activation, warm-up, increasing resistance on body weight exercises, and isolation training. The long resistance band is 110 cm (about 3.61 ft) and constructed to create a light, medium and heavy resistance option. The set includes a linen bag for neat storage or transport to the gym.

### Features

#### Durable Materials

Spun polyester yarn woven with rubber provides better elasticity and long-lasting performance. Different amounts of rubber in the fabric construction create varying resistance levels.

#### Distinctive Details

The bands come in a linen carry bag with Eleiko Seal, ensuring convenient transport to the gym or neatly storing them at home.

#### Quality Construction

The design eliminates rolling, snapping, pinching, or slipping and reinforced double-ply edge stitching removes the risk of sudden breaking.
