

# Eleiko Single Adjustable Pulley, Wall Mounted -120 kg

Black

- ✓ 1:2 weight ratio
- ✓ 90 or 120 kg weight stack
- ✓ Full metal construction
- ✓ Space-efficient design

Whether mounted to the wall or part of a multi-station configuration, the Eleiko Single Adjustable Pulley is a space-efficient, versatile cable training station with small weight increments and low starting weights that allow for a broad range of exercises. It features a 1:2 ratio providing 45kg pulling resistance with a 90kg stack, which can be increased to 60kg with the optional 120 kg stack upgrade. Maintenance-free shafts and linear bushings reduce upkeep, while stainless steel in high-wear areas ensures long-lasting performance.

## Features

### Safety

Safety is paramount, and our enclosed trolley design with a two-handed pop-pin operation keeps hands free from moving parts. We enclose our weight stack in a metal case to eliminate the risk of pinch points.

### Low maintenance

Maintenance-free shafts and linear bushings do not require lubrication, making Eleiko Cables a low-maintenance cable-based functional training option.

### The Eleiko Feeling

Large aluminium pulleys on each cable stack offer less internal resistance, resulting in less cable wear and a smoother user experience.

### Distinctive details

Each interaction point, from knurled pulley adjustment and trolley handles to the weight stack markings, was designed with the lifter in mind to deliver the ultimate lifting experience.

## Specifications

### Article code

BD-1-414

### Length

918 mm / 36.14 in.

### Width

729 mm / 28.7 in.

### Height

2353 mm / 92.64 in.

### Weight

195 kg / 429.9 lbs

### Warranty

6 months-10 years
