

Eleiko Lat Pull Down Bar 25mm

- ✓ Made in Sweden
- ✓ Knurling across the entire bar
- ✓ 25 mm grip on a 1200 mm bar
- ✓ 1.0 knurling

We leverage our 65-plus years of barbell manufacturing expertise in building the Eleiko Lat Pull Down Bar. Designed and manufactured in Halmstad, Sweden, the Eleiko Lat Pulldown Bar is a fully knurled, 25 mm grip bent bar with a 1.0 knurling, an attachment guaranteed to elevate your cable training experience.

Features

The Eleiko Feeling

The 25 mm grip limits grip fatigue to keep the focus on training the back, while 1.0 knurling balances the need for a secure grip and comfort for high-volume training.

Quality Materials

The Eleiko Lat Pull Down Bar is constructed from fine-grain, normalised steel used in our Curl Bars due to its properties for maintaining strength and structural integrity when bent. For lasting performance, the tabs are constructed from high-quality, durable chromed hardox steel.

Distinctive Details

In addition to Eleiko's signature knurling, the Eleiko Lat Pull Down bar includes grip markings to help find consistent positioning. The design is finished with Eleiko logo end caps.

Durable Construction

The eyelets are tig welded to ensure durability and longer-lasting performance at the attachment point while maintaining the clean and minimalist Eleiko design aesthetic.
