

Eleiko Lat Pull Down, Wall Mounted

120 kg - Black

- ✓ **Full metal construction**
- ✓ **Space-efficient design**
- ✓ **1:1 weight ratio**
- ✓ **120 or 150 kg weight stack**
- ✓ **Durable PUR pads**

Whether mounted to the wall, free-standing, or part of a multi-station configuration, the Eleiko Lat Pull Down delivers a space-efficient and effective way to train the back. The 120kg weight stack features a 1:1 resistance ratio and can be upgraded at a 150kg weight stack as needed. The bench and adjustable knee pads are constructed from Eleiko's durable, hygienic PUR cushions with seven adjustments at 30mm increments.

Features

The Eleiko Feeling

The large 150mm aluminium pulley wheels and durable 4mm cable wire mean less internal resistance and wear on the cable for longer-lasting performance and a smoother user experience.

Low maintenance

Maintenance-free shafts and linear bushings do not require lubrication, making Eleiko Cables a low-maintenance cable-based functional training option.

Distinctive details

Each interaction point, such as the knurled weight pin and weight stack markings, was designed with the lifter in mind to deliver the ultimate lifting experience.

Safety

Safety is paramount; we enclose our weight stack in a metal case and our pulley behind a metal protective barrier to eliminate the risk of pinch points.
