

Eleiko WPPO Powerlifting Competition Bar

20 kg

- √ Sensor-Ready
- 1.5 Power Knurling
- √ WPPO Certified

The official bar of elite Para powerlifting. Crafted in Sweden from a 28mm Eleiko Steel shaft to meet WPPO standards. Built for bench press stability at maximum loads, with 105 mm knurl-free zones that protect racking surfaces.1.5 Power knurling with DN3 Chrome™ offers a secure, comfortable grip. Gold-coloured accents identify this as WPPO-certified equipment.

Features

WPPO-Certified for Competition

Approved for international Para powerlifting — including the Paralympic Games, World Championships, and use in elite training centres.

Signature Grip

1.5 Power knurling offers maximum grip security for max effort lifts. DN3 Chrome™ finish protects the knurling for lasting performance in training and on the platform.

Engineered for Longevity

Fatigue-resistant sleeve design, Dual Lock system, and dustproof seal protect against moisture, chalk, and wear. Built to last and backed by Eleiko's lifetime warranty.

Precision Engineering

28 mm Eleiko Steel shaft machined to IT6 tolerance ensures straightness and stability. Weight tolerance exceeds WPPO standards at +0.1% / -0.05%.

Sensor-Ready

Quick-access end cap supports Eleiko velocity sensor for real-time feedback and seamless data tracking while maintaining full competition compliance.
