

# Eleiko Competition Kettlebell

20 kg

- ✓ Same size for all weights
- ✓ Calibrated to +/- 200g
- ✓ Colour coded for easy weight identification

Eleiko Competition Kettlebells use high-grade iron, a moulded construction and powder coat finish for exceptional durability. The kettlebells are carefully calibrated for competitive use with a distinctive colour range for easy identification and consistent size to support technique consistency.

## Features

### Kettlebell Design

Each kettlebell features a wide flat base for stability and easy to grip, non-corrosive stainless-steel handle with a subtle texture designed to hold chalk and improve control of the kettlebell.

### Consistent Size

Each kettlebell, regardless of weight, has the same base diameter, height and handle size, so you can train with consistent technique as you gain strength and progress.

### Steady and Secure

Easy to grip stainless steel handle and wide flat base for better control.

### Calibrated for Competition

Cast iron construction calibrated to within +/- 200 g

### Kettlebell Colours

The range is offered in the international Girevoy colour scheme for quick and easy weight identification by sight from anywhere in the room.
