

Precor RBK 885 Recumbent Cycle, P84, Black Pearl

The Precor RBK 885 Recumbent Bike seamlessly combines ergonomic design with advanced technology, offering users a low-impact, high-comfort workout experience. Equipped with the P84 touchscreen console, this bike facilitates a personalized fitness journey with extensive entertainment and workout options. Ideal for users seeking comfort without compromising on workout intensity, the RBK 885 provides a stable and satisfying ride.

Features

P84 Touchscreen Console for Engaging Workouts

The RBK 885 is equipped with the P84 console, featuring a 16-inch touchscreen that immerses users in a world of fitness and media connectivity. This console ensures every user can access personalized workout data and a variety of media options effortlessly.

Step-through Design for Easy Access

The bike's step-through design provides easy access for users of all abilities, enhancing safety and convenience. This feature is particularly beneficial for those with limited mobility, allowing them to engage in and maintain a regular fitness regimen without the challenge of high mounts or dismounts.

Ultra Comfortable Air Flex Seat

With its ventilated air flex seat, the RBK 885 offers unmatched comfort during workouts. The seat's design promotes better posture and supports longer, more comfortable sessions, making it ideal for rehabilitation or extended workouts.
