P84 Touchscreen Console for Engaging Workouts

The P84 console provides a 16-inch touchscreen that brings a top-tier entertainment and interactive fitness experience, offering users easy access to a multitude of workout programs and media options. This keeps users engaged and motivated, enhancing their workout efficiency.

Integrated Mobility and Stability

With moving handlebars and a covered rear drive system, the EFX 885 offers enhanced stability and versatility in workouts. The handlebars allow for a full upper body workout, complementing the lower body exercise provided by the elliptical motion, while the sleek cover of the drive system ensures easy maintenance and safety during use.

Converging CrossRamp® technology

This unique feature adjusts the elliptical path between 10-35 degrees, allowing users to target different muscle groups effectively. The Converging CrossRamp® technology enables a more natural stepping motion, enhancing the workout impact on lower body muscles and improving overall cardiovascular health.
