P84 Touchscreen Console for Engaging Workouts

The P84 touchscreen console on the SCL 885 provides a 16-inch screen that enhances user interaction, offering access to a comprehensive suite of workout options, real-time performance insights, and media integration. This ensures a stimulating and productive workout experience, keeping users motivated with every step.

Low Maintenance Design for Operational Efficiency

The SCL 885 is designed for easy maintenance, featuring a service chain that can be removed in under one minute and a robust construction that requires minimal upkeep. This design allows facilities to keep the stairclimber in peak condition with little downtime, ensuring continuous operation and user satisfaction.

Dynamic Step Control™ for Precision Performance

The Dynamic Step Control system adjusts the step rate to maintain accuracy and comfort across all exercise intensities, accommodating users of various fitness levels and ensuring an effective workout.
